SUMMARY

Inquisitive and driven Frontend Developer with expertise in Next.js, React.js, and TypeScript, specializing in building scalable, user-centric web applications. Experienced in agile methodologies, cross-functional collaboration, and delivering high-quality solutions for clients. Passionate about creating seamless user experiences and continuously improving technical skills.

WORK EXPERIENCE

Siu Digital Tech. Inc. (Hybrid)

Dec 2023 - Sep 2024

Frontend Developer

- Leveraging the power of Next.js and its ecosystem to architect and develop cutting-edge web applications,
- Designing visually stunning interfaces with a blend of Material UI and Tailwind CSS for a seamless user experience,
- Leading the charge in agile development methodologies, orchestrating projects with precision using Jira for streamlined collaboration,
- Employing Sentry for real-time application performance monitoring, proactively identifying and resolving issues,
- Utilized Storybook for UI component testing, ensuring consistency, reusability, and scalability across the application.

Crema- Creative Management (Remote)

Sep 2022 - Oct 2023

Frontend Developer

- Responsible for maintaining frontend requirements of ongoing projects,
- Translating designs into mobile responsive layouts with high level of code,
- Acquired applied knowledge of project management using agile methodologies mainly Scrum,
- Leveraged Umbraco CMS extensively to build and manage dynamic, content-driven websites, gaining in-depth knowledge of CMS architecture and functionality,
- Tools/Techs used for web development: Bootstrap, SASS, JQuery, JavaScript & React.js.

TELUS INTERNATIONAL, US(Remote)

Aug 2021 – Sep 2022

Page Quality Rater

- Improving the relevance of leading search engines by analyzing and providing feedback on text, web pages, images, and other types of information,

- Evaluating contents of website and making sure that end user gets helpful and relevant content.
