SUMMARY

Inquisitive and driven frontend developer with expertise in Next.js, React.js, and Node.js, specializing in building scalable, user-centric web applications. Experienced in agile methodologies, cross-functional collaboration, and delivering high-quality solutions for clients. Passionate about creating seamless user experiences and continuously improving technical skills.

WORK EXPERIENCE

TeenEagle (Hybrid)

Sep 2024 -

Frontend Developer

- Sole frontend developer responsible for architecting and building the business website [TeenEagle](#) and its admin dashboard from scratch, ensuring seamless user experience and functionality.
- Translated client designs into responsive, production-ready code using SASS, Bootstrap, and vanilla JavaScript, while maintaining consistent communication to refine features and meet evolving requirements.
- Leveraged Odoo CMS to develop and customize the website's backend, streamlining content management and enabling client autonomy post-launch.
- Optimized frontend performance by writing clean, modular CSS/JS, reducing page load times and improving cross-browser compatibility.

Siu Digital Tech. Inc. (Hybrid)

Dec 2023 - Sep 2024

Frontend Developer

- Spearheaded the frontend architecture of [Recruspace](#), an Applicant Tracking System (ATS), from inception using Next.js to establish a scalable foundation with SSR, dynamic routing, and performance optimizations.
- Built the UI system from scratch, translating Figma/Zeplin designs into a modular, reusable component library with Material UI and Tailwind CSS, ensuring consistency across the evolving dashboard.
- Championed Agile processes as a frontend lead, using Jira to prioritize MVP features, streamline sprint planning, and align cross-functional teams during early development.
- Proactively monitored stability by integrating Sentry for error tracking and PostHog for user analytics, enabling data-driven refinements during the product's initial rollout.
- Utilized Storybook for UI component testing, ensuring consistency, reusability, and scalability across the application

Crema- Creative Management (Remote) Sep 2022 - Oct 2023

Frontend Developer

- Developed and maintained responsive frontend architectures for high-traffic financial platforms, ensuring seamless user experiences across devices.
- Optimized page performance for [Isvarant](#), a foreign stock market tracker, by refining data-fetching mechanisms, reducing load times and improving scalability for heavy datasets.
- Built dynamic portfolio tracking tools for investment firms, including [Inveo Portfoy](#), enabling real-time fund comparisons and data visualization.
- Translated UI/UX designs into pixel-perfect, mobile-optimized layouts using Bootstrap, SASS, and JavaScript frameworks (React.js, jQuery).
- Leveraged Umbraco CMS to architect and manage content-rich websites, mastering CMS customization for scalable solutions.
- Agile (Scrum) methodologies to streamline project workflows, enhancing team collaboration and delivery efficiency.

Telus International (Remote) Aug 2021 – Sep 2022

Page Quality Rater

- Improving the relevance of leading search engines by analyzing and providing feedback on text, web pages, images, and other types of information,
- Evaluating contents of website and making sure that end user gets helpful and relevant content.

TECHNICAL SKILLS

Frontend Development: HTML5 | CSS3 | JavaScript | TypeScript | React.js | Next.js | Redux, Recoil.js | SASS | Bootstrap | Material UI | Tailwind CSS | Shadcn | jQuery | Framer | GSAP.

Testing & Debugging: Jest | Cypress | Sentry | Storybook.

Backend & APIs: RESTful API | GraphQL | Postman | Firebase | Node.js | Express.js

Databases & ORMs: Drizzle ORM | Neon Database | MongoDB.

Tools & Platforms: Git | Jira | CI/CD pipelines | Umbraco | Contentful | Strapi | Odoo.

Methodologies: Agile | Scrum.

SOFT SKILLS

Analytical Thinking | Problem-Solving Abilities | Self-Motivated | Strong Communication | Project Management | Planning | Time Management | Innovative | Detail-oriented

EDUCATION

Middle East Technical University

Sep 2010 - Jul 2015

B.S International Relations CGPA:3.54 Ranking: High Honor

Minor Public Administration

Sep 2013 - Jul 2015

VOLUNTEER EXPERIENCE

CODE YOUR FUTURE

December 2024 - Present

Teaching Assistant

- Guided aspiring developers in mastering foundational web development skills, including HTML, CSS, and JavaScript.
- Conducted detailed code reviews, providing constructive feedback to enhance code quality and best practices(DRY code, accessibility).
- Mentored participants to build confidence in problem-solving and debugging techniques.
